Ecological Research (1994) 9, 365–369

Subject index

A

Abies sachalinensis
  forest, stand structure and growth pattern dynamics of 333
  stand structure and dynamics of 77
aboveground biomass
  in *Pinus pumila* forests 193
abundance
  classes, for evaluating aphid infestations 57
  patterns, of soil micro-arthropods in *Pinus* forest 175
Acari
  abundance patterns of in *Pinus* forest 175
Acero–Quercetalia mongolicae
  phytosociological study of 21
Agelena limbata
  and reproductive success in 159
alpine plants
  seedling establishment of 205
aphids
  spatial heterogeneity in population dynamics of 57
Apodemus spp.
  interspecific competition in 237
araneid spiders
  as prey for pompilid wasps 225
arthropod communities
  classification and ordination of 131
Australia
  wheatbelt termite (*Drepanotermes tamminensis*) in 151

B

balloon-suspended trap system
  in tropical rainforest canopies (Tech. Report) 357
bamboo stand
  carbon stock and cycling in 47
Batozonellus lacerticida
  prey selection of, and effects of seasonal variation on 225
Betula platyphylla var. *japonica* stands
  maximum yield and C–D effects in 325
biomass
  in *Pinus pumila* forests 193
browsing
  and impact on seedling regeneration 115
  pressure, and effects on regeneration of pioneer tree species 85

C

C–D effect
  in Japanese white birch stands (*Betula platyphylla* var. *japonica*) 325
canonical correspondence analysis (CCA)
  of early volcanic succession 143
canopy
  structure, in *Pinus pumila* forests 193
  gap, regeneration in 85
carbon cycling
  in a bamboo *Phyllostachys bambusoides* stand 47
Castanopsis cuspidata forest
  gap regeneration dynamics of 295
Caulophyllum robustum
  influence in larval survival of a phytophagous ladybird 37
CCA ordination
  of North Korean vegetation 303
Cervus nippon
  age–sex differences in diets of 251
  browsing effects on the regeneration of a pioneer species 85
  effects on *Fagus crenata* regeneration, on Kinkazan Island 115
  food habits and diets quality of 251
  mass mortality of on Kinkazan Island 215
chasmogamy
  in *Impatiens noli-tangere* 67
cleistogamy
  in *Impatiens noli-tangere* 67
clonal
  growth, of *Ranunculus repens* 311
  plants, stochastic population dynamics of 257
closed chamber method
  in snow-covered forest floors 343
CO_2
  flux, in snow-covered forest floors 343
  profile, in snowpack 343
coastal forest
  stand structure and dynamics of 77
Coleoptera
  trapping with a balloon system in rainforest canopies (Tech. Report) 357
Collembola
  in urban forests 131
  abundance patterns of in *Pinus* forest 175
colonization
  of tropical fruitflies on Krakatau Archipelago 317
computer simulation
  of leaf blade and petiole length 109
Corydalis species
  myrmecochorous adaptations of 1
Corylo–Quercetum mongolicae
  phytosociological study of 21

D

demographic strategies
  of phytophagous and entomophagous insects 57
demography
  of clonal plants 257
desiccation
  in bryophytes 245
diet quality

in Sika deer (*Cervus nippon*) 251
differential equations
in a model for interactive pollutants 93
diplochory
of *Corydalis* species 1
dispersal morphology
of *Corydalis* species 1
disturbance
and dynamics in clonal plants 257
in warm-temperate forest 269
Distylium racemosum forest
gap regeneration dynamics of 295
dominance hierarchy
in stream-dwelling chars 9
Drepanotermes tamminensis
contribution to soil nutrient budget 351
influence of vegetation and soil types on 151
dry matter allocation
in *Pinus pumila* forests 193

E

emergence timing
of funnel web spiders 159
Epilachna yasutomi
larval survival of 37
erosion
and CCA on Mt Usu 143
evaporation
in subalpine mosses 245

F

Fagus crenata
regeneration of Kinkazan Island 115
faunistic changes
in Tephritidae on Krakatau Archipelago 317
fecal analysis
of the Iriomote cat 167
Felis bengalensis euptilura
food habits and scat analysis of 99
Felis iriomotensis
food habits of 167
floristic competition
of natural summer-green forests 21
flower age
in relation to nectar production 33
food availability
and effects on the Iriomote cat 167
food habits
of the Iriomote cat (*Felis iriomotensis*) 167
of Japanese Tsushima marten (*Martes melampustsuensis*) 99
of Siberian weasel (*Mustela sibirica coreana*) 99
of leopard cat (*Felis bengalensis euptilura*) 99
of Sika deer (*Cervus nippon*) 251
foraging tactics
of stream-dwelling chars 9
forest vegetation
topographical pattern of 269
forest–alpine tundra ecotone
of North Korea 303

G

gap regeneration
in evergreen forest 295
gekkonid lizards
reproductive cycle of 121
geomorphic processes
in warm-temperate forest 269
gross production
in a bamboo *Phyllostachys bambusoides* stand 47
growth
form, of subalpine mosses 245
patterns, of understorey trees in a coniferous forest 333

H

habitat
of wheatbelt termite (*Drepanotermes tamminensis*) in Western Australia 151
heterogeneity, of *Ranunculus repens* 311
Hemidactylus frenatus
reproductive cycle of 121
host plant suitability
in relation to ladybird larval survival 37

I

Impatiens noli-tangere
reproductive ecology of 67
insects
floral nectar as a reward for 33
interactive pollutants
a model of 93
interspecific competition
and foraging tactics of stream-dwelling chars 9
in *Apodemus* spp. (Rodentia) 237
Iriomote cat
food habits of 167
island biogeography
and tropical fruitflies 317
Isoptera
in the Western Australian wheatbelt 151, 351

J

Japanese white birch stands
maximum yield and C–D effects in 325

K

Kinkazan Island
Sika deer on 215
Krakatau tropical fruitflies
and faunistic changes of 317

L

Larix olgensis
altitudinal dynamics in North Korea 303
Larval survival
and influence of environmental conditions on 37
of the ladybird species *Epilachna yasutomii* 37
leaf morphology
and effects on light capture efficiency 109
leafhoppers
successional assemblages of 185
Leopard cat
food habits and scat analysis of 99
Lepidodactylus lugubris
reproductive cycle of 121
Lespedezo–Quercetum serratae
phytosociological study of 21
life-history strategy
of leafhopper assemblages 185
light
capture, interception and efficiency in leaf blades 109
conditions, and effect on reproductive ecology of *Impatiens noli-tangere* 67

M

Martes melampus tsuensis
food habits and scat analysis of 99
mass-mortality
of Sika deer on Kinkazan Island 215
mating success
in funnel web spiders 159
matrix models
of clonal plants 257
maximum yield
in *Betula platyphylla* var. *japonicum* stands 325
micro-arthropods
abundance patterns of in *Pinus* forest 175
morphology
of leaves and effect on light capture efficiency 109
moss
evaporation and growth form of 245
Mt Fuji
seeding establishment on 205
Mt Usu
CCA and succession on 143
multivariate analyses
in evaluating aphid infestations 57
Mustela sibirica
food habits and scat analysis of 99
myrmecochory
adaptations of *Corydalis* species to 1

N

nectar production
in relation to flower age 33
of *Rorippa indica* 33
net production
in *Pinus pumila* forests 193
niche shift
and regeneration dynamics in evergreen forests 295

O

ordination
of soil arthropods in urban forests 131
Oribatida
in urban forests 131

P

PCA analysis
in evergreen forests 295
petiole
length of and effect on light capture 109
phenology
of *Impatiens noli-tangere* 67
Phyllostachys bambusoides
carbon stock and cycling in 47
phytosociology
of natural summer-green forests 21
Picea jezoensis forest
stand structure and growth pattern dynamics of 333
Pinus pumila forest
aboveground biomass in 193
soil micro-arthropods in 175
pioneer species
regeneration of 85
plant–insect relationships
of *Caulophyllum robustum* 37
of *Epilachna yasutomii* 37
plasticity
of growth in *Ranunculus repens* 311
pollinators
testing with a balloon system in rainforest canopies (Tech. Report) 357
pollutants
a simple model of 93
Polygonum cuspidatum
seedling establishment of 205
Polygonum weyrichii var. alpinum
seedling establishment of 205
pompilid wasps
prey selection of 225
population
and mass mortality of Sika deer 215
dynamics, of two aphid species 57
persistence, and matrix models of clonal plants 257
prey
density, and effects on pompilid wasp prey selection 225
selection, by pompilid wasps 225
protandry
in funnel web spiders 159

R

Ranunculus repens
morphological plasticity of 311
reciprocal equation

in Japanese white birch stands 325
reciprocal-removal experiment
to test for interspecific competition in *Apodemus* spp. 237
recruitment
in clonal plants 257
regeneration
and effects of Sika deer on 115
of pioneer tree species affected by browsing pressure 85
pattern, in a coastal *Abies sachalinensis* forest 77
reproductive
cycle, of gekkonid lizards 121
success, in funnel web spiders 159
reproductive ecology
of *Impatiens noli-tangere* L. 67
Reptilia
reproductive cycles in 121
Rodentia
interspecific competition in 237
Rorippa indica
nectar production and floral age of 33

S

Salmonidae
foraging tactics of 9
Salvelinus leucomaenis
inter- and intraspecific competition and foraging tactics of 9
scat analysis
of Japanese Tsushima marten 99
of leopard cat 99
of Siberian weasel 99
seasonality
and effects on diet of the Iriomote cat 167
seed size
of alpine plants on Mt Fuji 205
seedling
establishment, of *Polygonum* spp. at high altitudes 205
regeneration, and effects of Sika deer on 115
sexual dimorphism
in Sika deer 251
shading
mutual forms of in plants 109
Siberian weasel
food habits and scat analysis of 99
Sika deer
age–sex differences in diets of 251
browsing effects on the regeneration of a pioneer species 85
effects on *Fagus crenata* regeneration 115
food habits and diet quality of 251
mass mortality of on Kinkazan Island 215
on Kinkazan Island 115
size-dependent mortality
of alpine plants on Mt Fuji 205
skinks
in the diet of the Iriomote cat 167
snowpack
efflux of CO_2 from 343
soil
arthropods; classification and ordination of, in urban forests 131
micro-arthropods; abundance patterns of in *Pinus* forest 175
nutrients; and contribution of Western Australian wheatbelt termite (*Drepanotermes tamminensis*) 351
respiration; in snow-covered forest floors 343
respiration levels; in a bamboo stand 47
type; influence on wheatbelt termite 151
spatial and temporal heterogeneity
in population dynamics of citrus aphids 57
spatial distribution
in a tropical forest 281
species
diversity, in a Thailand forest 281
richness, of North Korean vegetation 303
species-abundance relationship
in a Thailand forest 281
species-area relationship
in a tropical forest 281
spiders
and reproductive success in 159
spider wasp
prey selection of, and effects of seasonal variation on 225
stand structure
and dynamics in a coastal *Abies sachalinensis* forest 77
stand growth stage
of *Betula platyphylla* var. *japonicum* 325
stand structure
of understorey trees in a coniferous forest 333
subalpine mosses
growth form and evaporation of 245
succession
and CCA on Mt Usu 143
of leafhopper assemblages 185
sugar concentration
of nectar in *Rorippa indica* 33
sunlight intensity
in relation to larval survival 37

T

Tephritidae
faunistic changes on Krakatau Archipelago 317
termites
influence of vegetation and soil types on 151
role in soil nutrient budgets 351
topography
of forest vegetation 269
tree canopy
balloon-suspended trap system in (Tech. Report) 357
tropical forest
species diversity in 281
Tsushima marten
food habits and scat analysis of 99
TWINSPAN classification
of North Korean vegetation 303

U

understorey trees
  stand structure and growth patterns of 333
urban forest
  soil arthropods in 131

V

vegetation pattern analysis
  of warm-temperate forest 269
vegetation structure
  and effects on leafhopper assemblages 185
  of North Korean treeline 303
vegetation type
  influence on wheatbelt termite 151

W

waiting pattern
  of understorey trees in a coniferous forest 333
warm-temperate forest
  topographical pattern of 269
wave regeneration
  in a coastal *Abies sachalinensis* forest 77
  of pioneer tree species under browsing pressure from Sika deer 85
wave-type stands
  in a coastal forest 77
wood borers
  testing with a balloon system in rainforest canopies (Tech. Report) 357

Z

Zanthoxylum ailanthoides
  regeneration of 85
